Dyersburg, TN

joshua.d.williams74647@gmail.com

EDUCATION

University of Tennessee at Martin; Martin, TN

B.S. in Engineering (Electrical)

Aug 2018

GPA: 3.69/4.0

Vanderbilt University Boot Camps

Full Stack Web Development

Oct 2023

Grade: 97

TECHNICAL SKILLS

Frontend Development

Backend Development

Databases

Automation & Scripting

Tools & Platforms

HTML5, CSS3, Bootstrap, JavaScript (ES6), React.js

Node.js, RESTful APIs, VB.NET, .NET Framework

DB2, SQL Server, MySQL

VBA (Excel Macros)

Git, GitHub, Bitbucket, Jira, Microsoft Excel, AutoCAD

EXPERIENCE

ERMCO; Dyersburg, TN

Software Design Engineer | May 2025 – Present

- Design, develop, and maintain internal business applications using VB.NET and the .NET framework, applying object-oriented programming (OOP) and modular software architecture principles.
- Perform software debugging, troubleshooting, code reviews, and testing to ensure application reliability, performance, and scalability.
- Engineer and refactor VBA-driven automation solutions in Microsoft Excel to streamline business workflows, reduce manual processes, and improve operational efficiency.
- Develop and optimize SQL Server queries, stored procedures, and data workflows supporting application functionality and large-scale data migration initiatives.
- Support legacy system modernization efforts, refactoring and enhancing existing applications and macros during enterprise-wide business system migration.
- Utilize Git-based version control workflows to manage source code and support collaborative, agile software development.

Associate Design Engineer | Jan 2020 – May 2025

- Contributed as part of the engineering team in design, analysis, and continuous improvement initiatives for electrical transformers.
- Assisted in improving production processes and product performance through engineering analysis and collaboration.
- Managed business system configuration processes, including order configuration updates and system data revisions.
- Provided technical support and engineering consultation to internal teams, customers, and sales personnel.

Jackson Energy Authority; Jackson, TN

Electrical Co-op | May 2018 – Aug 2019

- Created AutoCAD drawings to support system and infrastructure design projects.
- Assisted engineers in the development of electrical installation and removal plans for commercial, industrial, and municipal facilities.
- Supported project engineers in documentation and design verification for electrical systems.
